DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.

In the instant application, a fax machine connected to the home network through a power switch and a telephone line, the fax data processing unit receives the fax data through the internet and store it in the storage means, then the fax data processing unit transmit a control command to the power switch through the middleware server to turn the fax machine ON, to transmit the fax data to the fax machine through the telephone line and not through the storage mean as discloses in the art combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
